

SPECIFIC PROCUREMENT NOTICE

Russian Federation
Registration Project
Procurement of Equipment and Development of a Unified IP-network and Data Encryption
Facilities for RosReestr Territorial Units

Loan No.4826 RU
Contract/Bid No. RP/ICB - 05

The Russian Federation has received financing from the World Bank toward the cost of the Registration Project, and it intends to apply part of the proceeds toward payments under the contract for procurement of equipment and development of a Unified IP-network and Data Encryption Facilities for RosReestr Territorial Units. The Federal Service for State Registration, Cadastre and Cartography (RosReestr) now invites sealed bids from eligible bidders for the Contract RP/ICB-05 for procurement equipment and development of a Unified IP-network and Data Encryption Facilities for RosReestr Territorial Units (4377 units of cryptorouters). The delivery period is 40 weeks. Delivery locations include 155 addresses throughout Russia. Qualifications requirements include:

(a) Financial Capability. The Bidder must have had an average annual turnover equivalent to at least USD thirty (30) million for the most recent three (3) years (2008-2010) and this turnover must have been derived solely through the provision of Information Technology (IT) goods and services. Where the Bidder is a Joint Venture the sum of all Partners average turnover amounts may be used. Also, where the Bidder is a Joint Venture the Partner in Charge must have had an average annual turnover equivalent to at least USD twenty five (25) million for the most recent three (3) years (2008-2010). All qualifying turnover must have been derived solely through the provision of Information Technology (IT) goods and services.

(b) Experience and Technical Capacity.

(i) The Bidder shall furnish documentary evidence to demonstrate that it meets the following experience requirement(s):

(1) during the past four (4) years (2007-2010) the Bidder must have successfully completed (as a prime contractor or leading partner of the joint venture) at least two (2) contracts with the total value of each contract more than five (5) million US dollars for the complex geographically distributed supply of IT equipment. Each such contract must include: (a) supply of at least three thousand (3000) units of IT equipment; (b) supply to at least fifty (50) sites with at least one hundred (100) kilometers distance between sites; (c) on-site warranty support for supplied equipment; (d) supplied equipment must be operational for at least 2 months before the bid submission date.

(2) during the past three (3) years (2008-2010) the Bidder must have successfully completed (as a prime contractor or leading partner of the joint venture) at least one (1) contract for the remote support of IT equipment and software for at least fifty (50) sites with at least one hundred (100) kilometers distance between sites.

Where the Bidder is a Joint Venture, the Partner in Charge must comply with these requirements. Same contract could be used to prove compliance with requirements (1) and (2) above.

(ii) The Bidder must have an organized service network for the supplied equipment; or must demonstrate in the bid documentation a credible plan for establishing such a network prior to the delivery of any equipment proposed by the Bidder.

(iii) The Bidder must have a remote center which will be able to support equipment testing; or must demonstrate in the bid documentation a credible plan for establishing such a center prior to the delivery of any equipment proposed by the Bidder.

(iv) The Bidder, or a joint venture partner, or one of sub-contractors must have the licenses described below valid as of the Bid submission date:

1) license issued by the Federal Security Service of the RF to perform development and production of encryption (cryptographic) devices, protected through use of encryption (cryptographic) devices of information and telecommunication systems;

2) license issued by the Federal Security Service of the RF to perform technical support of encryption (cryptographic) devices;

3) license issued by the Federal Security Service of the RF to supply encryption (cryptographic) devices;

4) license issued by the Federal Security Service of the RF to perform development and(or) production of devices for protection of confidential information;

5) license issued by the Federal Service on Technical and Export Control (FSTEK) of the RF to perform the following works related to development of information protection devices: development, production, supply, installation, modifications, testing, repair, service support.

6) license issued by the Federal Service on Technical and Export Control (FSTEK) of the RF to perform the following works related to technical protection of confidential information: implementation and service of technical protection of confidential information.

(v) The Manufacturer(s) of the proposed equipment and software must be certified in accordance with ISO 9001:2000 quality management standards.

A margin of preference for certain goods manufactured domestically shall be applied.

Additional details are provided in the Bidding Documents.

Bidding will be conducted through the international competitive bidding procedures as specified in the World Bank's [*Guidelines: Procurement under IBRD Loans and IDA Credits*](#), (2004 edition), and is open to all eligible bidders as defined in the guidelines.
